

### Dimethyl Acetamide(DMAC)

#### Specifications:

PH Range 20% aqueous	4.0 to 5.0	
Colour	max	10
Water	% by wt. max.	0.05
Acetic Acid	% by wt. max.	0.1
Purity	% by wt. min.	99.75
Density	gm/cc	0.935 - 0.942
Refractive index	at 25oC	1.4358 to 1.4360
DMAC impurity in DMF	max	100
Conductivity 20% aqueous	micro mhos	40

#### Packing:

Stainless steel road tankers, 200 kg HM HDPE drums.

#### Uses:

1. As a solvent in Acrylic Fibre.
2. Solvent in the manufacture of polyester films.
3. As a solvent in Paint stripping because of its very rapid removal action.
4. Both as a solvent as reactant in drug industry.

#### Industries Served:

Acrylic Fibre, Polyester Films and Drugs.
